OBJECTIVE

Use my skills as designer and developer to help an organization create innovative, usable interactive media for both the internet and desktop environments.

EDUCATION

Miami University, Oxford, Ohio — B.S. Management Information Systems, 2009
Interactive Media Studies minor

EXPERIENCE

ASSOCIATE SUPPORT ANALYST, CERNER CORPORATION; KANSAS CITY, MO — 2009

- Tasked with the job of assisting Cerner associates and clients
- Troubleshooting hardware, software and web application issues
- Customer support functions including call center and face to face interaction

UI CONSULTANT, GLACIR; KANSAS CITY, MO — FALL 2009

- Collaborated with the design team to create a unique, usable interface for the social network Glacir
- Created interactive UI elements with PHP and Javascript

STUDENT ASSOCIATE, MIAMI UNIVERSITY; OXFORD, OHIO — 2006-2009

- Maintained and developed the Physical Facilities website and intranet sites
- Maintained and updated legacy JSP code
- Converted existing web pages to PHP
- Developed additional functionality for existing applications
- Performed hardware and software technical support
- Performed database maintenance

PROTOTYPE DEVELOPER, ARMSTRONG INTERACTIVE; DUBLIN, IRELAND — SUMMER 2008

- Spent a month in Dublin, Ireland helping develop a flash-based prototype for a new social network
- Integrated design elements with functional elements of the prototype considering usability and performance

FREELANCE DESIGNER — 2004-PRESENT

I have extensive experience as a freelance designer under the brand name Category-13. I execute design, development, and consulting services as well as administer all business functions related to Category-13.
